

## To start charging:

Present your RFID card to the reader

Select the correct charging option for your vehicle from the 3 presented on screen.

You will be prompted on screen to connect your vehicle.

**DC Combo**  
VW e-Golf  
BMW i3

**CHAdEMO**  
Nissan Leaf  
Mitsubishi Outlander  
KIA Soul

**AC**  
Renault Zoe  
Tesla  
Audi e-Tron  
Mercedes B Class

The CHAdEMO differs slightly to the other cables as you will need to press the button down to release.

Slot the plug into the car.

The unit will run a safety check that will appear on screen.

The charging screen will then appear and the vehicle will begin charging.

## To finish charging:

Present the RFID card to the reader as before

The display will show a summary of your charging session.

To disconnect remove the cable from the vehicle and replace.
